

CULTURAL EXCHANGE UNITED WORK AND TRAVEL

The intention of this BridgeUSA program is to bring the world together through experience. For you to learn about American society and way of life, to live alongside Americans, gain hands on experience in an American business, all while sharing your culture, values, and viewpoints to make a positive difference. This is not a program to make money or become rich in any other manner than Cultural Experience.

If you have challenges with your Cultural Exchange Program- contact our team immediately. If we are not aware of an issue, we are not able to actively assist you. If you have contacted our team and feel that you are not receiving assistance, you may contact the U.S. Department of State help line, 1-866-283-9090. Please be certain to call our office for resolution first. As your Sponsor, we are your first point of contact and support in the USA. For a medical emergency or immediate danger to your health, safety, or welfare – please call 911 and then contact us once you have reached safety.
